

# WIVA™

## Click lid

- 1** The porthole door is designed so the container can be temporarily closed in-between uses.

- 2** To insert the door, align the arrow on the door with the arrow on the lid.

- 3** To engage the temporary closure turn the lid until the arrow on the door aligns with the open padlock.

- 4** To engage the final, permanent closure turn the lid until the arrow on the door aligns with the locked padlock.
