

**Daniels Healthcare** 

**Product Brochure** 

UK-based manufacturer and provider of the UK's favourite sharps and clinical waste containers

**REDEFINING SUSTAINABILITY** 

With four decades of experience in supplying market-leading container solutions to the healthcare industry, Daniels Healthcare works collaboratively with customers to ensure products and services meet the needs of infection prevention professionals, procurement teams, waste managers and sustainability leaders.

As a key supplier to the NHS and wider healthcare market, Daniels Healthcare has a passion for, and emphasis on, sustainable product development, affordability and safety to unite and exceed the everevolving priorities of the healthcare industry.

Daniels Healthcare's vision is to be the world's most innovative sharps and clinical waste solutions company, providing safe, responsibly manufactured and cost-effective solutions to the healthcare sector.

#### Safe for users, sustainable for our planet

Daniels Healthcare is proud to be at the forefront of delivering the next generation of sustainable healthcare products to help protect our planet and ensure the safety of patients and healthcare professionals.

Manufacturing containers made from responsibly sourced recycled material and business-wide carbon-saving processes help the NHS and wider healthcare market to achieve their environmental and sustainability objectives.

## **Sustainability Promise**

**PEOPLE** 

**PLANET** 

Daniels Healthcare works in partnership with customers, suppliers and staff, to ensure that sustainability progress and successes are monitored, communicated and connected to our Sustainability Promise.

Daniels Healthcare holds and maintains:

ISO 50001 certification in energy efficiency

ISO 14001 certification environmental management system.

#### Daniels Healthcare's commitment to sustainability is a four-part promise:

- ◆ Caring about the future of our planet
- Securing the future of our business to continue to support our valued employees and their families
- Enriching our contribution to our dedicated **community of healthcare providers**
- Innovating our products, service and support to enhance the value for our customers.

#### **Daniels Healthcare puts safety first**

#### The UK's most trusted sharps container

Daniels Healthcare is a dedicated advocate of a safety-first approach when it comes to frontline healthcare staff and their patients. Ensuring, as standard, that customers' product knowledge on usage, storage and compliance with regulations is always up-to-date.

Providing strong, durable and sustainable containers, Daniels Healthcare manufactures the most trusted sharps container series on the market.

# Containers manufactured and certified to:

ISO 9001 quality system certification

ISO 23907-1:2019 standard for sharp injury protection

UN 3291 safe transportation of clinical waste.

# Industry-leading training and support

Experienced representatives work with NHS Trusts and healthcare service providers across the country providing dedicated account manager support, alongside day-to-day on-site installation, training and audits.

#### Raising the standard of after-sales support

Daniels Healthcare prides itself in setting the standard of after-sales support services and in building customer relationships to enable safe and confident use of its products in clinical settings.

Its sales, support and customer service teams are uniquely trained with genuine insight into the challenges faced by busy healthcare professionals. They are instrumental in providing the industry-leading support package which includes:

Scan to find your Local Area Manager

- Experienced product advice
- Personalised and engaging training on the safe storage, use and disposal of sharps with a CPD accredited course
- ◆ Timely, helpful compliance audits to support customer regulatory responsibilities and identify training needs
- Unique QR codes on containers for immediate and specific training and information
- Educational materials for customers in delivering safe working practices.

#### SHARPSGUARD® sharps and clinical waste containers

Since its launch in 2003, SHARPSGUARD® has become the UK's favourite sharps container.

SHARPSGUARD® containers are made using recycled material, designed and manufactured with safety in mind. Fully compliant with UN 3291 and ISO 23907-1:2019 standards.

SHARPSGUARD® containers with a range of coloured lids in line with HTM07-01 waste segregation guidance.

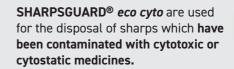

SHARPSGUARD® eco orange are used for the disposal of sharps which have <u>not</u> been contaminated with medicines.

not cytotoxic or cytostatic.

#### Features and benefits:

- Maximised usable capacity with convex lids
- Space saving with flat lids and stackable containers
- Training at the point-of-use with unique QR codes
- Accessories available to secure safely at the point-of-use.

SHARPSGUARD® eco yellow are used for the disposal of sharps which have been contaminated with medicines, but

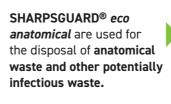

SHARPSGUARD® eco pharmi are for the disposal of pharmaceutical waste in its original packaging, no sharps.

SHARPSGUARD® eco dani

are for the safe collection and transportation of non-medicinal broken glass and crockery.

#### POUDS® Point of Use Disposal System

The POUDS® range of accessories helps reduce the risk of sharps injuries by bringing the SHARPSGUARD® containers closer to the point-of-use.

The range supports you in complying with EU Directive 2010/32 which lays out regulatory guidelines to prevent sharps injuries in hospital and healthcare environments.

- ♦ POUDS® trays
- POUDS® brackets
- POUDS® mobile holders

#### WIVATM Clinical Waste Containers

The WIVA™ range of clinical waste containers are designed and manufactured with user safety in mind. More than 75% of NHS Trusts choose Daniels Healthcare for their sharps and clinical waste container needs.

## **VAT5** Range

The WIVA<sup>TM</sup> range of clinical waste containers offer waste managers working in hospitals, clinics or laboratories a safe solution for the storage and transport of their healthcare waste.

The containers are manufactured to comply with UN3291, and the WIVA<sup>TM</sup> 60L with a solid lid is also suitable for Category A Waste by complying with UN3549 when used with two UN-approved bulk clinical waste bags and overlay label.

#### **WIVA™** Infinity Range

A sustainable solution to the healthcare sector and minimising the impact on the environment.

INFINITY

SERIES

The WIVATM Infinity range of clinical waste containers is the world's first UN-approved clinical waste container made from Post-Consumer Recycled Resin (PCR).

They come with the same features of the WIVATM VAT5 range with the added benefit of being made from responsibly sourced recycled plastic. Providing a cost-effective and sustainable solution to the healthcare sector for their waste, while still meeting the highest standards in quality and safety.

#### Features and benefits:

- ◆ Bases made from 100% PCR
- Efficient storage with stackable lids and containers
- Trolleys available to transport to the point-of-use.

# DANIELS® Transport Containers UN 3373

The transport containers are designed to provide healthcare professionals in the community, hospital staff and emergency responders with a safe way to transport specimens or handle and dispose of sharps\* while on the move.

The containers come in a range of sizes and adhere to packaging regulations for transporting contaminated sharps\*, clinical waste and specimens.

The smaller containers come with in-car brackets to aid more secure transportation.

\*when used in conjunction with a SHARPSGUARD® sharps container

Diagnostic Specimen Containers
Available in a 7L and 30L

**Community Nursing Container** 

#### SANIBOX® Clinical Waste Containers

The SANIBOX® range of clinical waste containers are UN Approved for the storage and transport of healthcare clinical waste.

Made from durable Forest Stewardship Council® certified cardboard they hold a high-density polyethylene liner to safely contain clinical waste or pharmaceutical waste from hospitals, clinics and laboratories.

#### **PATSLIDE®** Patient Transfer Slide

The PATSLIDE® is designed to reduce the risk of injury to healthcare staff while transferring patients. The smooth upper surface provides low resistance, allowing for easy transfer and a smooth bridge, spanning the gaps that occur between beds, trolleys and tables.

With a variety of sizes, you can choose a slide to suit your patient circumstance.

#### **Category A Clinical Waste Solutions**

Daniels Healthcare offers the following solutions for the containment of Category A Clinical Waste to ensure that dangerous waste is secured safely.

- WIVA™ VAT5 60l container with a solid lid, when used with two UN-approved bulk clinical waste bags and overlay label.
- ◆ WIVA™ Infinity 60l container with a solid lid, when used with two UN-approved bulk clinical waste bags and overlay label.
- → WIVA™ MedProtec620
- → WIVA™ Vanguard

The patented DANIELS® danicentre is a wall-mounted utility cabinet with integral compartments for dispensing disposable gloves, overshoes or aprons as well as hand disinfection lotion.

The large oval apertures allow easy access to each compartment and an elongated dispensing slot in the lower section can also handle couch rolls, paper towels or rolls of bags. There is also the option of having a bottle holder for attaching a disinfection bottle to the unit.
